Board Certified in Internal Medicine

DEA

CURES

NIH

---

## Experience

---

### UCR Critical Care Fellowship/ Critical Care Fellow

07/2023- Present, San Bernardino Ca

I am currently a Critical Care Fellow with UCR pursuing my board specialization in critical care medicine. I have experience running a 37 bed ICU over nights as a part of my training as well as experience in both MICU and SICU services during days.

### Eisenhower Medical Center / Chief Resident

07/2022-07/2023, Rancho Mirage Ca

I was chief resident at EMC hospital where I was responsible for both my clinical and administrative duties to facilitate the residency program and resident's goals. As such I have experience with problem solving at multiple levels of the modern medical system.

### Internal Medicine Resident / Resident

07/2020-07/2023 Rancho Mirage Ca

I underwent my internal medicine training at Eisenhower Medical Center in Rancho Mirage CA where I learned my in patient practice and subsequently became board certified in internal medicine.

---

### **MSAP Facilitator / Educator**

10/2018-12/2018 Saint George's University

I was hired as a tutor for medical students in my university as a part of their student to student education efforts to give lectures to underclassmen and help prepare them for their exams.

---

---

## **Education**

### **Saint George's University/ MD**

07/2016-04/2020

I went to medical school at Saint George's University where I received both didactic and clinical training across multiple locations primarily in the north east around New Jersey and New York and where I graduated Cum Laude.

### **Birmingham Southern College / Bachelor's of Science**

08/2011-05/2015

I went to undergraduate at Birmingham Southern College where I received education in biology and subsequently graduated with the aforementioned degree which required individual research and poster conferences in my field.

---

---

## **Research**

### **Coccidiomycosis Local Population Assessment with Dr. Dabu**

Eisenhower Medical Center, Rancho Mirage, Ca, USA

11/2022-05/2023

This research project looked at coccidiomycosis in a retrospective study to assess for local risk factors in the Coachella valley

### **Monarch Robotic Bronchoscopy Comparison to Standard Flex Bronchoscopy with Dr. Thomas**

Eisenhower Medical Center, Rancho Mirage, Ca, USA:

09/2020 - 07/2023

Monarch robotic bronchoscopy data collection and analysis for comparison of yields, ROSE, and complications between standard flex bronchoscopy and robotic bronchoscopy sample acquisitions

### **Effects of Perioperative Antiseptic on Suture Tensile Strength with Dr. Pergande**

Trinitas Regional Medical Center, Elizabeth, NJ, USA

01/2019 - 08/2019

This project was focused on the effects of a topical antiseptic called on suture tensile strength which was thought to be associated with wound dehiscence.
